The fatal rapidly with which slight

cold and croup frequently develop

in children, and the rapidity with which

long is a consideration which should

impose every person to keep at

hand a good supply of Ayer's Cherry

Pectoral.

The most effective remedy we have

ever found, in all afflictions of

this class, is Ayer's Cherry Pectoral.

We have found it to be a

most efficacious medicine, and

that anything less in relieves even the most

severe bronchitis and pulmonary disease.

AYER'S CHERRY PECTORAL.

The same opinion is expressed by the

whole medical profession, at Chicago,

Ills., who say—“Ayer's, of Chicago, is

the best.”

There are found, in thirty-five years

of experience, no greater number of

cases of bronchitis, croup, &c., than

those treated with Ayer's Cherry

Pectoral.

The same opinion is expressed by

every physician who has been

employed by everybody.

AYER'S CHERRY PECTORAL.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.
